THE BEACON GROUP

SUPPLY CHAIN | REAL ESTATE | AUTOMATION | ENGINEERING

THE BEACON GROUP | CORPORATE OVERVIEW

The Beacon Group (TBG) is a full-service industrial and supply chain solutions firm helping businesses plan, improve and transform their operations. From facility strategy and real estate to warehouse design, engineering, automation and technology implementation, our experienced team delivers practical, end-to-end solutions that improve efficiency, reduce costs and support long-term growth.

ONE TEAM. ONE PLAN. ONE POINT OF CONTACT.

01 TBG ADVISORY

Experienced operating guidance

Diligence support, value creation planning and hands-on leadership for critical business and operational decisions.

02 TBG REAL ESTATE

Find the right facility

Tenant representation, site selection and facility strategy - supported by network analysis before you commit.

03 TBG AUTOMATION

Automate what makes sense

Robotics, sortation, AGVs/AMRs, goods-to-person and AS/RS solutions designed around your operation and growth plans.

04 TBG SOFTWARE

Make your systems work together

Connect ERP, WMS, controls and automation so technology investments integrate cleanly and perform as intended.

05 TBG ENGINEERING

Design it. Build it. Commission it.

Material handling and facility systems engineered and implemented from concept through startup with one accountable team.

06 TBG LABS

Test before you scale

Pilot new technologies, operating models and ideas on real-world problems before making a larger investment.

4Syte™

MODEL THE OUTCOME BEFORE YOU COMMIT

TBG's planning, simulation and digital-twin platform helps evaluate alternatives, expose tradeoffs and quantify operational and financial impact before capital is committed.

WHY BEACON?

Most firms advise. Others integrate. Others install. TBG brings strategic direction, tactical design and hands-on execution together under one team - reducing handoffs, risk and finger-pointing.

25-50%	15-25%	230+	500+
Typical supply chain cost reduction	Typical throughput improvement	Projects executed	Facilities designed / relocated / transformed
